COMPUTER

Topic: Understanding AI Tools & Learning to Write Prompts

 **Goal:**

To introduce students to Artificial Intelligence (AI) tools in a simple and fun way, and help them practice writing creative prompts. This activity will enhance digital awareness, spark creativity, and build curiosity.

PART A – What is AI?

Watch the video clip for help

<http://youtube.com/watch?v=ttIOdAdQaUE>

 **Learn and Write:**

Open **MS Word** and answer the following questions in your own words:

1. What do you think AI means?
2. Have you seen or heard about AI tools like voice assistants (e.g., Alexa, Siri)?
3. How do you think AI helps people in real life?
4. Can you name any one AI tool or app?

💡 **Hint:** You may ask your parents, check your textbook, or watch a kid-friendly video about AI with adult supervision.

PART B – Let’s Learn Prompt Writing

A **prompt** is a way to tell an AI tool what you want it to do. It’s like giving smart instructions to a helpful robot!

Activity:

Write **3 creative prompts** you would like to give to an AI tool (such as ChatGPT, Gemini, or Meta AI).

Examples:

- “Write a short story about a robot who loves to dance.”
- “Draw a magical science laboratory.”
- “Tell me 3 fun facts about elephants.”
- “Write a poem about summer holidays.”
- “What would happen if cats could talk?”

- ❖ Choose your **favorite answer** from the AI tool, **copy and paste it into a Word file**.
 - ❖ Save with title of week 4 and send email.
